

Task 38

Solar Air-Conditioning and Refrigeration

D-A5: Appendix 3

Questionnaire for Package Solution Provider

Date: June 2010

Edited by Anita Preisler

Institution	AIT – Austrian Institute of Technology, Energy Department
Address	Giefinggasse 2, A-1210 Vienna, Austria
Phone	+43 (0) 50550-6634
Fax	+43 (0) 50550-6613
e-mail	anita.preisler@ait.ac.at

5. Do you have pre-defined control strategies for different framework conditions and applications?

6. Which service is supplied by your company and what has to be done by any partner (installer/planer/..)?

7. What has to be sized separately?

- E.g. pump for heat rejection loop depends on distance between cooling tower and chiller

8. Specific requirements (space in technical room and for heat rejection, water treatment)

9. Maintenance

- What type of maintenance does the end user have to do? How often?
- What type of maintenance needs to be done by a specialized company? How often?

10. Do you offer Monitoring as part of the package?
